Reviewed in the United States on November 9, 2011. This voluminous work by Professor Bryer and David Winfield on the Byzantine monuments and topography of the Pontus is by far the most detailed work on the subject - at least in the English language. Containing extensive information on both the Greek monuments (churches and monasteries) and the Greek cities, towns and villages - it is a must read for anyone wanting to explore the rich past of this almost forgotten region in north eastern Turkey.
