### Interior Design And Interior Architecture

Interior Design vs. Architecture. Architecture concerns everything about a structure. This includes: the design of the exterior; interior floorplans; the general function of the space; Interior design focuses on the building's inside, covering: layout; colors; finishes like flooring and countertops; You might hire either one to help you develop a floorplan and carry out a remodeling project.

### Interior Architecture vs. Interior Design | Building ...

An interior architecture course is a hybrid field of study, bringing interior design and architecture together in a single discipline. It takes a good knowledge of building regulations, and an understanding of the structure of buildings, in order to make projects safe, habitable, and functional.
