The Digital Divide: Arguments for and Against Facebook

...

The Digital Divide is a fascinating collection of essays that analyze, celebrate, and lament the digital world in the dawn of Web 2.0. Even though some of the essays were written over ten years ago and talk about entities that are no longer relevant (Friendster, for example), it is the themes in the essays that resonate and make them timeless.

advocacy and awareness, this fact has important ramifications.

Author Mark Bauerlein

What is the digital divide?

Digital divide is a metaphor for the cleft between people with access to technology and those without. Although the term originated in the mid-1990s to describe differences in technological infrastructure of U.S. schools, it has grown to describe various forms of alienation predicated on class, race, and national identity.
