The Sociology Of Auguste Comte

Isidore Auguste Marie Francois Xavier Comte was born in Montellier of Southern France in January 1, 1798 and died in 1857. He was the first thinker who realized the need for a distinct science of human society. He is regarded as the father of sociology. He is regarded as the father not because of his significant contributions to the subject but because of creating sociology as a science of society or science of human behaviour.

The Contribution of “Auguste Comte” to Sociology

Auguste Comte was born on January 20, 1798 (according to the Revolutionary calendar then used in France), in Montpellier, France. He was a philosopher who is also considered to be the father of sociology, the study of the development and function of human society, and of positivism, a means of using scientific evidence to discern causes for human behavior.
